

# SERVICES

We are with you every step of the way...

## **Architecture & Design**

We not only build homes, but we can design them. We can take your ideas and build them into a functional design that you will be comfortable in with all the amenities that you want. Ron meets with you during the design process and knows how to ask the right questions to be sure that you get the layout and features that you want in your home.

## **Builders**

If nothing else we are builders. We have been building homes for over 20 years. We take pride in our work that it gets done right the first time and that it is done well. We use quality products to build our homes and offer a warranty on the work that we do. We work to make sure that you get the home that you dreamed of.

## **Interior Design**

Our interior designer, Joree Walters, will be with you through the whole building process. She will help you pick out all of those things that you never even thought about. From your kitchen sink, to the tile in the bathroom, to your ceiling fans, she makes sure that you have everything you need. She will be with you to go over all the details of your house and to help you find a style that will grow with you over the years. She stays up on the latest styles, always has her eye on the classics, and adds flares to make a style yours.
